

2011 SCRUBBY RISE

Sauvignon Blanc Semillon Viognier

[WEST AUSTRALIAN](#) Ray Jordan, DEC 2011

“Interesting blend with the tight sauvignon and semillon mix filled with the more unctuous and oily viognier to add texture and aromatics to a rather delicious mix. The early vintage helps and despite the difficulties, an appealing current-drinking wine has been created.”

[SIPYOURSTYLE.COM.AU](#) Katrina Holden DEC 2011

“...This Scrubby Rise White blend is made up of 60% sauvignon blanc, 27% semillon and 13% viognier – a “great alternative for those whoe are perhaps a little jaded with straight sauvignon blanc”. There’s some trademark aromatic characters here the sauv blanc fans will appreciate, with passionfruit and melon while the addition of Semillon and viognier add some citrus, lemon and apricot flavours – rounding out the wine and softening the acidity. Fresh, zingy and with texture – an easy-drinking summer sip.”
